### PREPARING THE RETRIEVER 120' FOR USE

#### INSTRUCTIONS:

Retriever 120' - is designed for rescuer safety and retrieval efforts of dogs in or on ice.

- 1) Inspection – Visual cursory inspection for cracking or excessive wear in the following areas:
  - a. Carbon Fiber Pole
  - b. Buoyant Line
  - c. Snare Loop
- 2) Make a large section
- 3) Take a bite of rope, place under the blue shock cord and yellow pull tab with the one farthest away from foam pad.
- 4) With the "snare-loop" place it under the closest blue band. Snare Loop facing foam pad.
- 5) The upper line should be taut while the bottom buoy line is large enough to be placed over the dogs head.
- 6) The buoy should be centered in line.
- 7) Once line is secured over dog's head, rescuer will pull the rope to secure it around the dog's neck.
- 8) Shore support will remain in control of line with tautness applied to line.
- 9) Rescuer will help assist dog's hind quarters out and upon the ice with Tactical Reach Pole.

## CARE, MAINTENANCE, SERVICE and STORAGE

Before and after each use, inspect your Retriever 120' to ensure that it is in a serviceable condition. Check for worn or damaged parts. Ensure all rope, buoy, shock cord, snare loop and bag are present. Inspect blue/yellow rope for wear, cuts, burns, frayed edges or other damage. Thoroughly inspect Retriever 120' after any period of extended storage. Store Retriever 120' in a cool, dry, clean environment out of direct sunlight. Do not expose Retriever 120' to flame or high temperature environments. Avoid contact with any corrosive or caustic chemical agents such as acids, bases, or petroleum products. Discontinue use of product if it has come in contact with any of the above listed or any suspect chemical agents. Avoid storage and use of Retriever 120' in areas where chemical vapors may exist. Discontinue use of Retriever 120' and remove from service if inspection reveals an unsafe conditions.

- 1) Wash with fresh warm water in mild detergent after use.
- 2) Thoroughly dry rope by hanging.
- 3) Store in well ventilated area to prevent dry rot.
- 4) Avoid storing in direct sunlight or in sub freezing temperatures (prolonged exposure to sunlight will deteriorate the polypropylene, rope, pull tabs and shock cord).
- 5) Do not power wash.
- 6) Inspect your **Retriever 120'** regularly for damage, including abrasion, cuts and UV damage to shock cord / pull tabs, rope and bag. If in doubt contact Ice Rescue Systems at [info@icerescuesystems.com](mailto:info@icerescuesystems.com)

## RECORD KEEPING:

It is suggested that the user of this Retriever 120' keep a permanent record listing.

The date and results of each usage inspection. Such record should show, at a minimum, inspection criteria as written in section maintenance, service and storage.
